Find my perfect stay

- Autofill country or city, DO NOT autofill with hotel name
- When click in field, popup calender set to tomorrow's date
- Top of calendar has buttons to scroll by year and by month
- Do not permit scrolling to impossible dates
- When arrival date is chosen, automatically popup departure date calendar
- Popup calendar set to day after chosen arrival date
- Top of calendar has buttons to scroll by year and by month
- Do not permit scrolling to or selection of impossible dates
- Allow user to click between fields/calendars so that user does not get trapped
- When arrival and departure dates decided, calculate number of nights and put "XX nights" in this space
- When click in field, drop down menu with number of guests from 1 to maximum number of guests permitted by hotel
- If click in field before number of guests chosen then error message: "PLEASE CHOOSE NUMBER OF GUESTS"
- When click in field, contextual menu with options depending on number of guests:
 - 1 guest: One single/One Double bed
 - 2 guests: Two single/One Double bed
 - 3 guests: Three single beds/One Double + One Single bed
 - 4 guests: Four single beds/One Double + Two Single beds/Two double beds
 - 5 guests: Five single beds/One Double + Three Single beds/Two double beds + One Single Bed
- Three radio buttons for each criterion: breakfast, payment, cancellation. Begin with all buttons unselected

• This page and all following: background is a static image, different image for each page

- Search button: if click before all fields filled then error message "PLEASE SELECT XXXX OPTION(S)"
- If search gives no results then go to page XX Full Hotel Listing Page with error message "Sorry, we couldn't find a hotel for your chosen destination and/or dates"
- If search successful then go to Page 3: Search results showing appropriate hotels
